

Altona Plumbing and Civil are committed to protecting the environment by managing and undertaking all our operations in an environmentally responsible manner.

OUR COMMITMENT

- To provide practical environmental care and strive to ensure all negative environmental impacts are avoidable and mitigated.

WE WILL

- Demonstrate compliance with all applicable environmental laws and / or regulations, international, national or industry standards or HSE requirements specified by our clients.
- Strive to improve our environmental performance through waste reduction, reuse and recycling, as far as is practicable. Where further improvements are difficult, carbon neutral programs shall be considered and implemented.
- Prevent pollution to be caused or allowed as a result of our operations, including the emission or transmission from our work sites of any noise, odour, atmospheric contaminant, or electromagnetic radiation that may unreasonably interfere with the health, welfare, convenience, comfort or amenity of any person.
- Not cause or allow serious or material environmental harm.
- Prevent unauthorised clearing of native vegetation, or contravention of the conditions of an authorised clearing permit.
- Maintain the management system that is compliant with; AS/NZS 4801, AS/NZS 45001, AS/NZS ISO 9001 and AS/NZS ISO 14001.
- Actively responding to and investigating all environmental incidents.

Altona will implement and maintain these systems, inclusive of standards, policies and procedures. These processes will be monitored regularly to ensure their integrity and effectiveness to facilitate continuous improvement.

This policy is endorsed by the Board and approved by Senior Management.
